Globe Aroma

Globe Aroma is an artistic work and meeting place offering space, time and creative support to people with a migrant background.

Our operation is based on 3 pillars:

- Workplaces → A place for artists to work and meet and develop their artistic work
- Participation → Artistic, participative and co-creative projects
- Art For All → Cultural outings in Brussels and Flanders

Our spaces

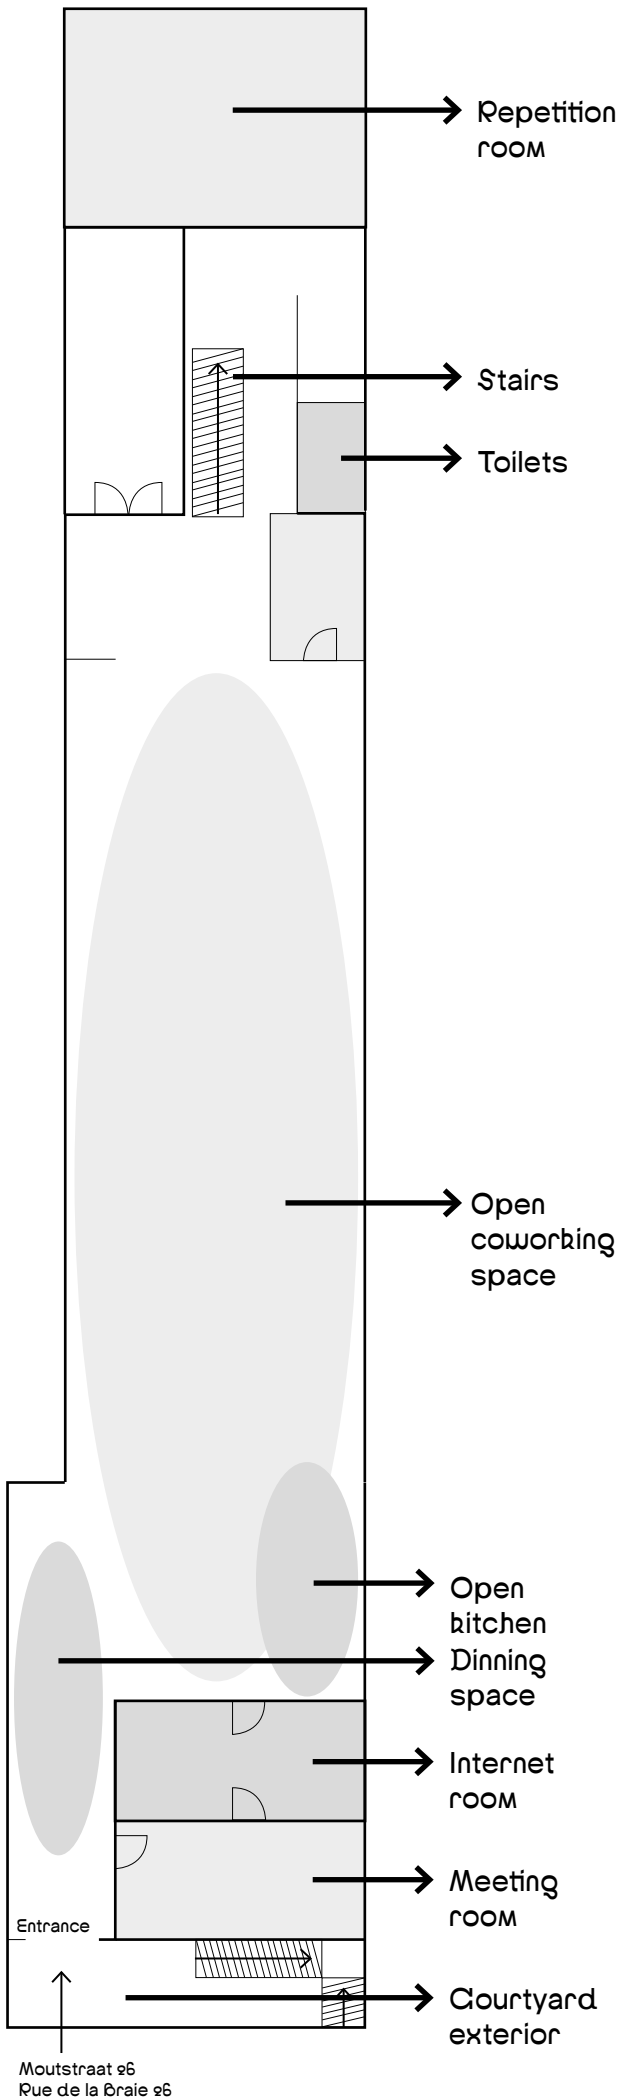

The open work space on the ground floor is free to use and will allow you to work in a common space that can be adapted to your needs. At the end of the day, the space must be cleared, putting everything used back in its place by the artists who have occupied the space in order to welcome new people the following day.

The internet space and the meeting room are free to use but will be available only on a reservation basis. To make a reservation, simply let us know when you wish to use a computer and we will register you.

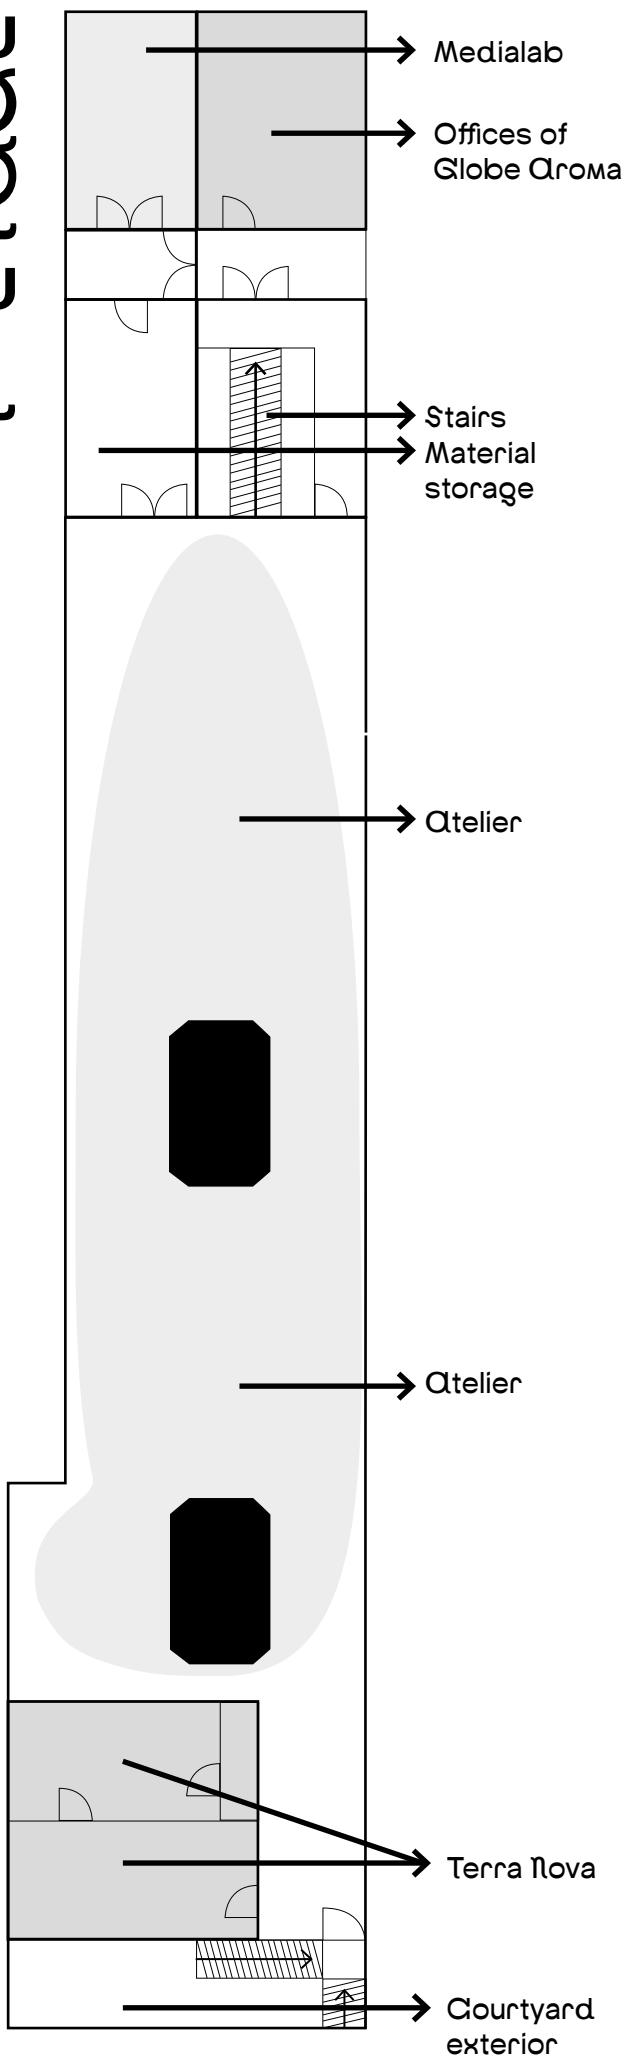

Globe Aroma will be open every day of the week from 10am to 5pm.

Every Thursday, Globe Aroma will exclusively host Espace Femme and female and non-binary artists.

Artistic Workplaces

Globe Aroma is reopening its studios to the artists of our community with a new space to provide artists with the ideal working conditions. We now have an open-plan downstairs common work space as well as a rehearsal room, a meeting room and an internet space. On the first floor, there are workshops dedicated to visual, textile and digital artists.

Every Thursday, Globe Aroma will exclusively host Espace FxMME and female and non-binary artists.

CALL FOR APPLICATIONS

Every 3 months we launch a call for artists from our community and open to all disciplines. It concerns the rehearsal space and the workshop space on the first floor where everyone can create in their own space and independently.

In order to organise the space and give everyone the opportunity to create, we would like you to send us some information:

- Which days of the week do you want to create/rehearse at Globe Aroma?
- If we decide in the future to stay open longer in the evenings or on weekends, what days or times would you prefer?
- How many days/hours per week do you expect to work at Globe Aroma during these 3 months?
- How much space will you need?

Based on this information, we will be able to define the use of these spaces to interested artists.

Below are some additional questions to help us understand your needs and expectations:

- A short text about yourself and your artistic practice (music, painting, sewing, film ...) with a web link, audio or photographs (if you have any).
- What kind of materials and equipment will you need to create at Globe Aroma
- What are your infrastructure needs (do you need electricity, light, a water point...)?
- What are your expectations of the creative environment (noisy work?, need for silence?)

Deadline:
18 octobre 2021

You can send the information, photos, sounds, videos by filling in the form :

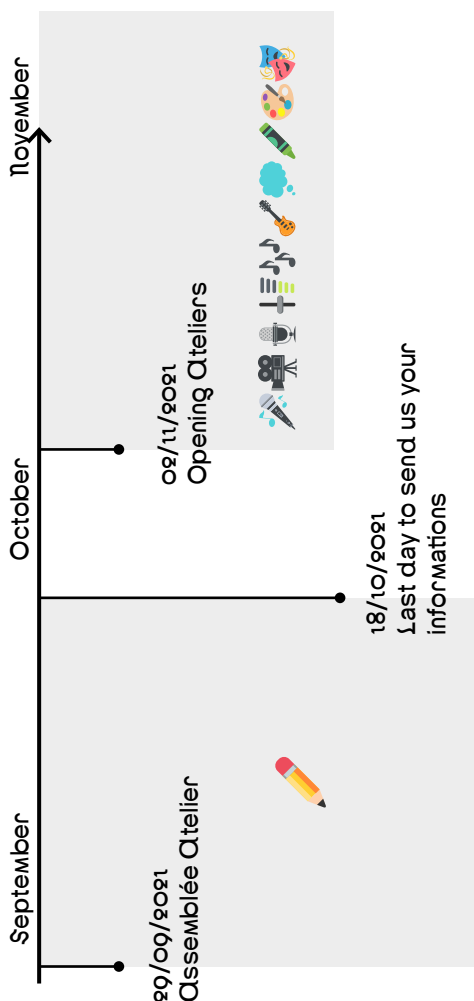

<https://docs.google.com/forms/d/1J5fzkbPhu0l1Js-U4wuO7qhD5tuX6zRgQ513bF8GRip3/edit>)

or by sending an e-mail to atelier@globearoma.be.

You can also write your answers on the paper document and bring it back to Globe Aroma or send a whatsapp message to Brecht: 0484 823 484 or Elli 0489 378 481.

From the 1st of October to the 15th we will be present at Globe Aroma to help you prepare the information requested above. Do not hesitate to contact us for help!

Traces For The Future

In 2022, Globe Aroma will celebrate its 20th anniversary. For this occasion, we are partnering with BNC-BBOT, a Brussels-based organisation that develops socio-artistic sound projects with residents and artists.

Over the years, many artists have been active within our walls, resulting in some 1000 works of art. Because these works will soon be released to the world, we would like to first capture and preserve the stories behind the artworks and their origins.

So, from October 2021, we will launch a participatory audio project. Audio, co-creation, participation and the people who visit Globe Aroma are at the heart of this.

The end result of this project will be audio. But in what form exactly: the choice is yours! We are looking for people who want to get involved in this project. Are you an artist who wants to tell your story, or the story of your work? Do you want to work on recording and editing audio? Or both? Everyone is welcome! We provide (technical) training and guide you every step of the way.

WHAT: Narrative and sound workshops
WHEN: Wednesdays from 6pm.

Le Maillot – One Size Fits All

LE MAILLOT - ONE SIZE FITS ALL unites a group of performers with different artistic practices - such as dance, photography, fashion, video and athletics, and all with football as their common passion - to work around the football shirt, and the infinite cultural and physical meanings attached to it.

This production was born out of a meeting between Ghilan Ratnamohan, Sergio Belo Fanch, Olimu Mahammad, Lia Conceição and Issouf Ilboudo. They came together to explore football movements, but what emerged most was a common interest in fashion or design from completely different perspectives. Ghilan also invited footballers Mahy Nambiar and Oumar Diallo.

Starting from the action of pulling a shirt - which in a football match puts you in contact with your opponent and is typically considered an aggressive game - they try to take this action to the extreme, to deconstruct its aggressive and competitive nature, in order to create something new.

In this way, football shirts take on a new meaning. The history and cultural implications of each piece of fabric transcend the initial associations surrounding the garment. It's countries, it's clubs, it's cities, it's villages, it's sponsors, it's oil companies, it's memorabilia and it's fashion; the players, their models and the high fashion suppliers. But who is able to provide this haute couture?

Espace FxMME

ESPACE FXMME - WOMXN SPQCE, created shortly before the pandemic, is a time-based space that takes place every Thursday at Globe Aroma. It is a platform for female/non-binary artists and creatives to establish a safer space in an environment previously dominated by a male presence.

In the last year, Espace FxMME has been developing the TQLK WITH THE WQLLS trajectory, as a reflection, design exercise and action on how space best reflects our values (intersectionality, solidarity, participation, creativity, inclusion, care).

Previous iterations of the TQLK WITH THE WQLLS trajectory, were: the safer space design workshop, building the modular furniture and THE MURQQL. From October onwards, Espace FxMME is going to be working on the last iteration of the trajectory based around different techniques of textiles design. (Weaving, Batik, Embroidery and more). Qiming to create softer vessels of hospitality.

Art For All

Art for All aims to introduce newcomers to the Brussels art scene in an accessible way.

Every month, we visit several Brussels art houses and festivals, in all artistic disciplines (music, theatre, visual arts, etc.). Once a month, we present all the activities of the Art For All fair, which you can register for.

This group is open to all.

If you are interested, don't hesitate to leave us your phone number or email so that we can send you the invitation for the first show which will take place in November.
