The open co- working space on the ground floor is free to use and will allow you to work in a common space that can be adapted to your needs. At the end of the day, the space must be cleared, putting everything used back in order to welcome new people the following day.

The internet space and the meeting room are free to use but is available on a reservation basis. To make a reservation, simply let us know when you wish to use a computer and we will register you.

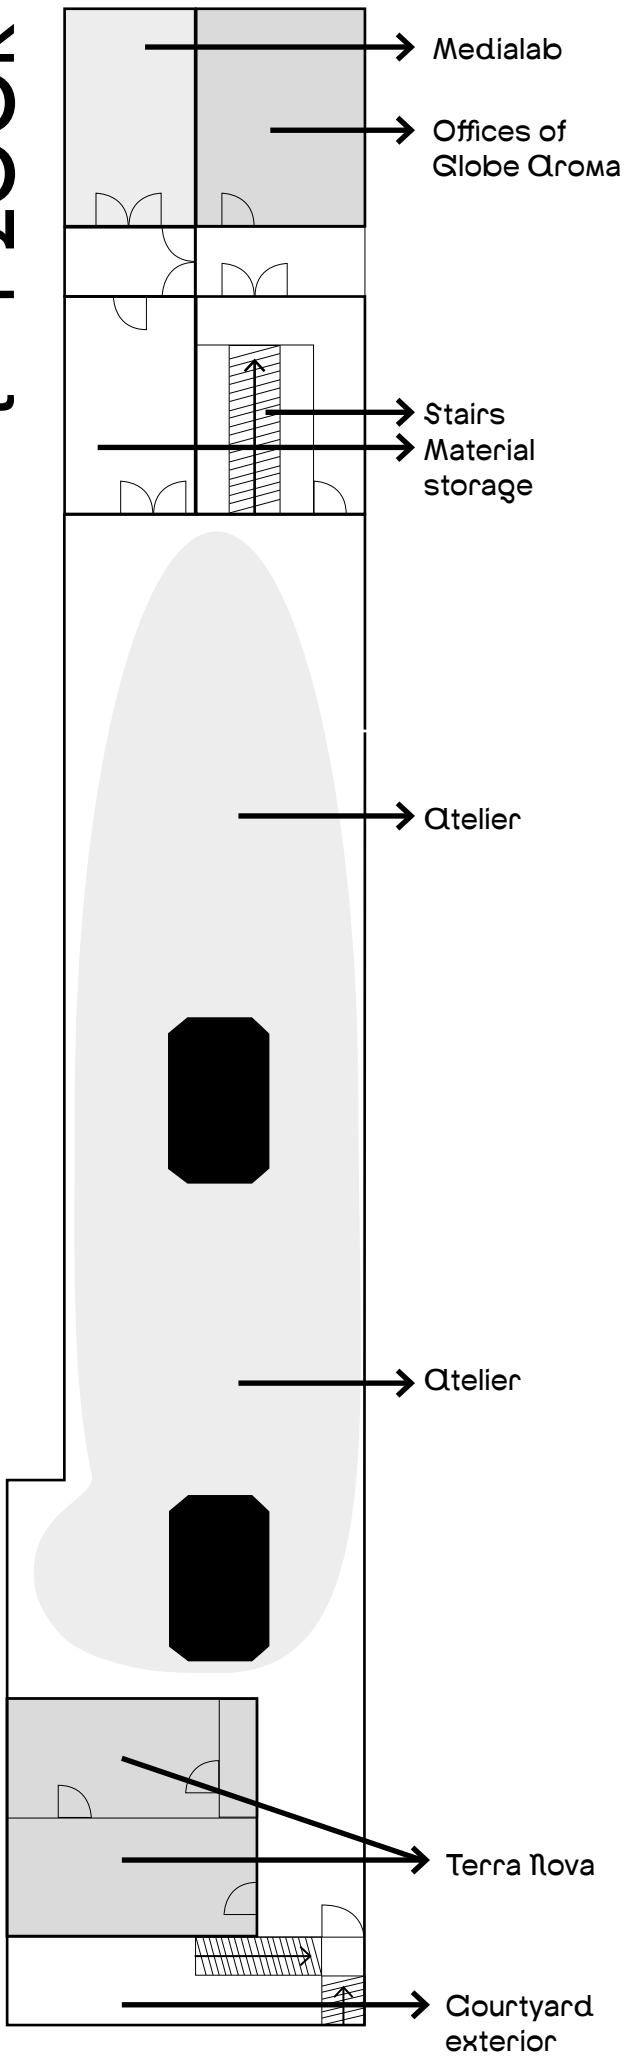

Globe Aroma will be open every day of the week from 10am to 5pm.

## CALL FOR APPLICATIONS

Every 3 months we launch a call for artists from our community and open to all arts disciplines. It concerns the rehearsal space and the workshop space on the first floor where everyone can create in their own space and independently.

In order to organise the space and give everyone the opportunity to create, we would like you to send us some information:

- Which days of the week do you want to create/rehearse at Globe Aroma?
- If we decide in the future to stay open longer in the evenings or on weekends, what days or times would you prefer?
- How many days/hours per week do you expect to work at Globe Aroma during these 3 months?
- How much space will you need?

Based on this information, we will be able to define the use of these spaces to interested artists.

Below are some additional questions:

- A short text about yourself and your artistic practice (music, painting, sewing, film ...) with a web link, audio or photographs (if you have any).
- What kind of materials and equipment will you need to create at Globe Aroma?
- What are your infrastructure needs (do you need electricity, light, a water point...)?
- What are your expectations of the creative environment (noisy work?, need for silence?)

Deadline:  
1/3/2022

You can send the information, photos, sounds, videos by filling in the form :

or by sending an e-mail to atelier@globearoma.be.

You can also write your answers on the paper document and bring it to Globe Aroma or send a Whatsapp message to Brecht: 0484 823 484 or Elli 0489 378 481.

From 1/2/2022 till 1/3/2022, we will be present at Globe Aroma to help you prepare the information requested above. Do not hesitate to contact us for help!

# Espace FxMME

ESPACE FXMME - WOMXN SPACE, created shortly before the pandemic, is a time-based space that takes place every Thursday at Globe Aroma. It is a platform for female/non-binary artists and creatives to establish a safer space in an environment previously dominated by a male presence.

In the last year, Espace FxMME has been developing the TALK WITH THE WALLS trajectory, as a reflection, design exercise and action on how space best reflects our values (intersectionality, solidarity, participation, creativity, inclusion, care).

Previous iterations of the TALK WITH THE WALLS trajectory, were: the safer space design workshop, building the modular furniture and THE MURQAL.

Since October, Espace FxMME is working on the last iteration of the trajectory (GETTING SOFTER) based around different techniques of textiles design. (Weaving, Batik, Embroidery and more). Aiming to create softer vessels of hospitality.

# Le Maillot – One Size Fits All

LE MAILLOT - ONE SIZE FITS ALL unites a group of performers with different artistic practices - such as dance, photography, fashion, video and athletics, and all with football as their common passion - to work around the football shirt, and the infinite cultural and physical meanings attached to it.

This production was born out of a meeting between Ghilan Ratnamohan, Sergio Belo Fanch, Olimu Mahammad, Lia Conceição and Issouf Ilboudo. They came together to explore football movements, but what emerged most was a common interest in fashion or design from completely different perspectives. Ghilan also invited footballers Mahy Nambiar and Oumar Diallo.

Starting from the action of pulling a shirt - which in a football match puts you in contact with your opponent and is typically considered an aggressive game - they try to take this action to the extreme, to deconstruct its aggressive and competitive nature, in order to create something new.

In this way, football shirts take on a new meaning. The history and cultural implications of each piece of fabric transcend the initial associations surrounding the garment. It's countries, it's clubs, it's cities, it's villages, it's sponsors, it's oil companies, it's memorabilia and it's fashion; the players, their models and the high fashion suppliers. But who is able to provide this haute couture?
